

REN'PY

INTRODUÇÃO

Baixe a versão mais atualizada do Ren’Py em www.renpy.org

Ren'Py | Why Ren'Py | Download | Documentation | Ren'Py Games List | Search Ren'Py | Se

Ren'Py 7.4.4 "The Pot of Gold"

was released on March 17, 2021. The main downloads of Ren'Py 7.4.4 are:

Download SDK 7z.exe - 88 MiB | Download SDK dmg - 111 MiB | Download SDK tar.bz2 - 108 MiB

Download SDK zip - 114 MiB

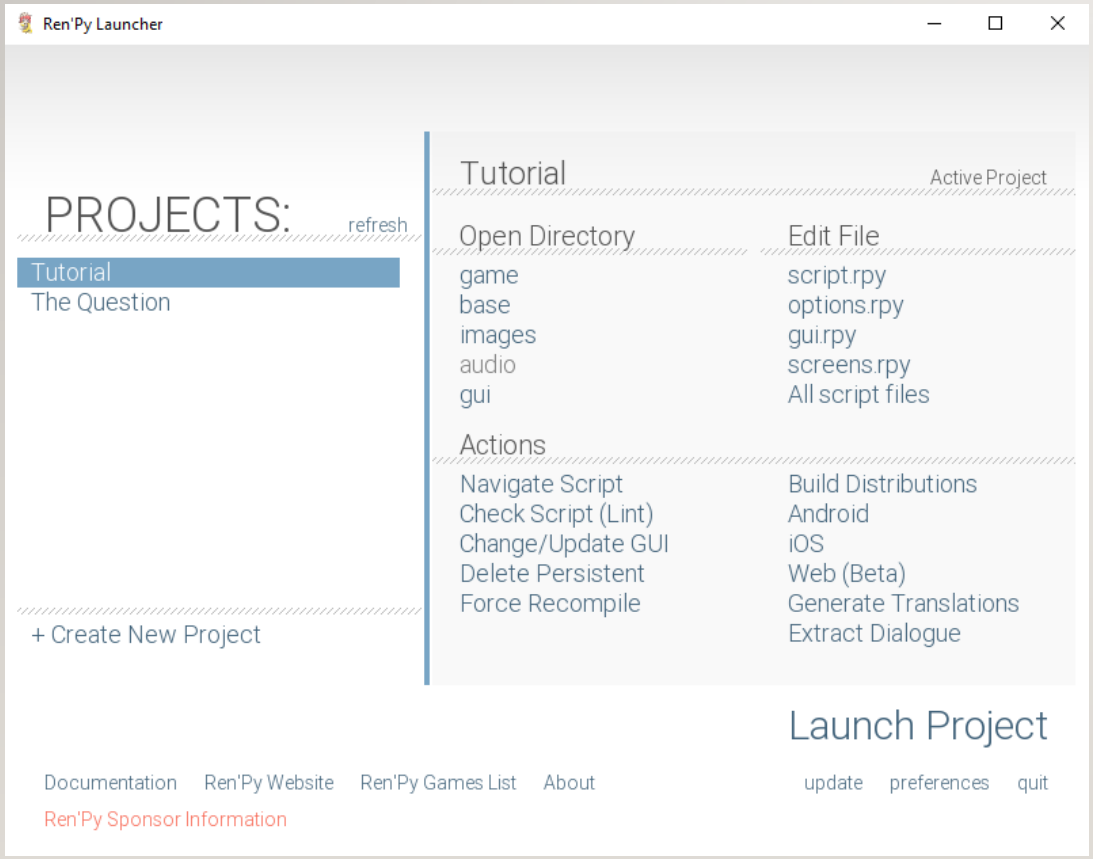

You only need to download one of these three files. Each contains the full Ren'Py software development kit, with everything needed to develop Ren'Py games for Windows XP and up, Mac OS X 10.6 and up, and Linux x86/x86_64. The development environment contains the files needed to produce games for all three platforms, the Ren'Py tutorial, and "The Question", an example game.

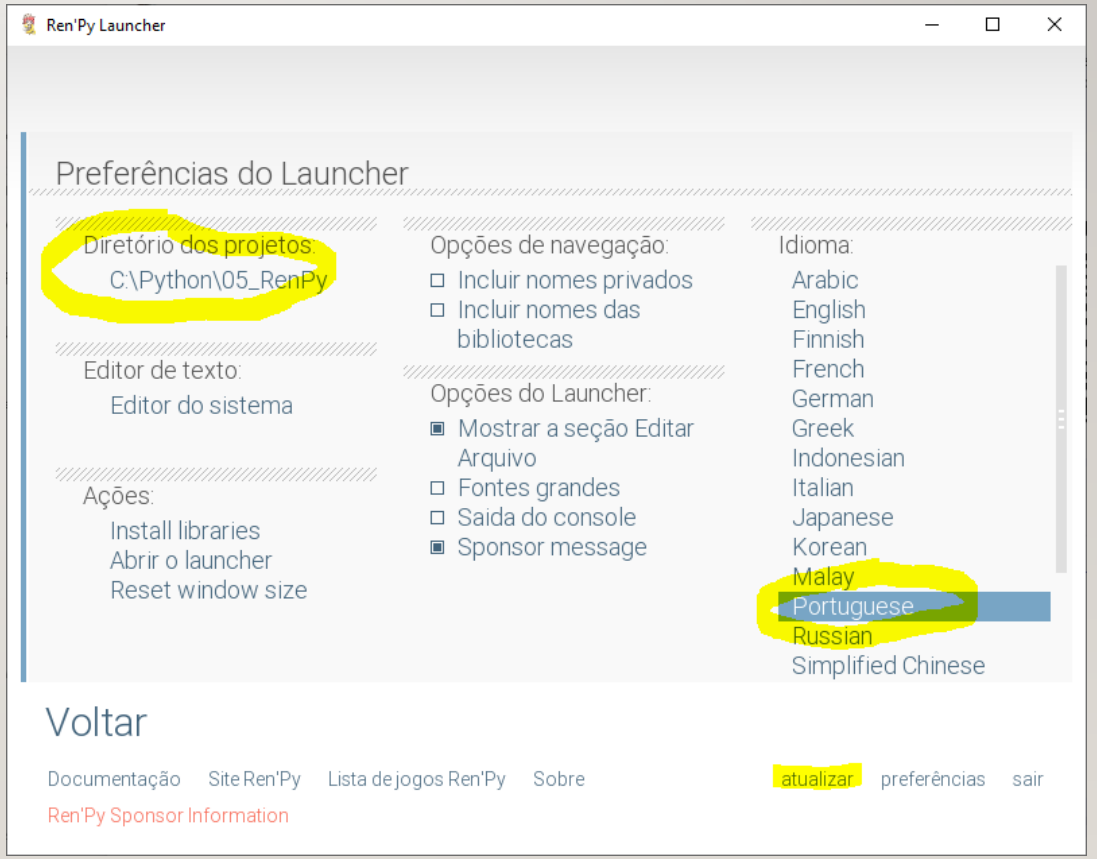

Ren'Py is free to download and use for commercial and non-commercial purposes. It may be modified and distributed under the terms of its license.

Additional Downloads. When necessary, the Ren'Py SDK will automatically download additional packages, such as text editors and Android/iOS support. These packages are available for direct download at the bottom of this page.

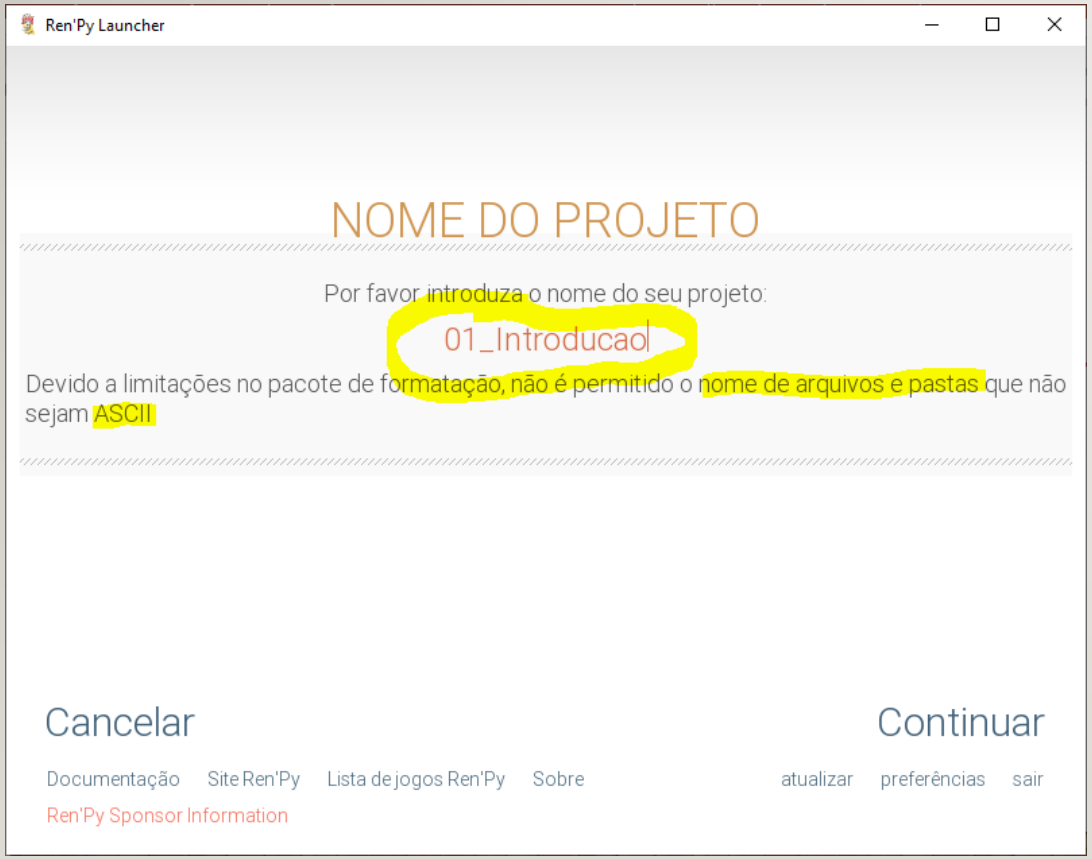

Execute a instalação, altere as preferências e atualize

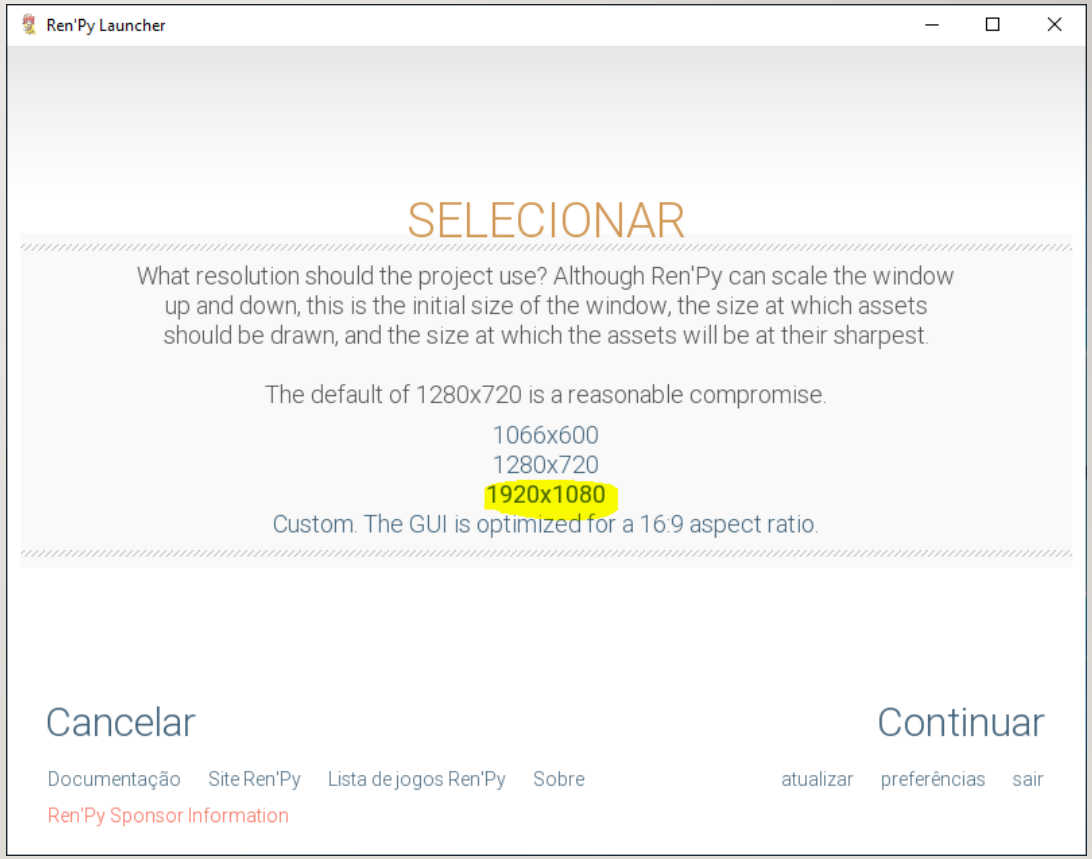

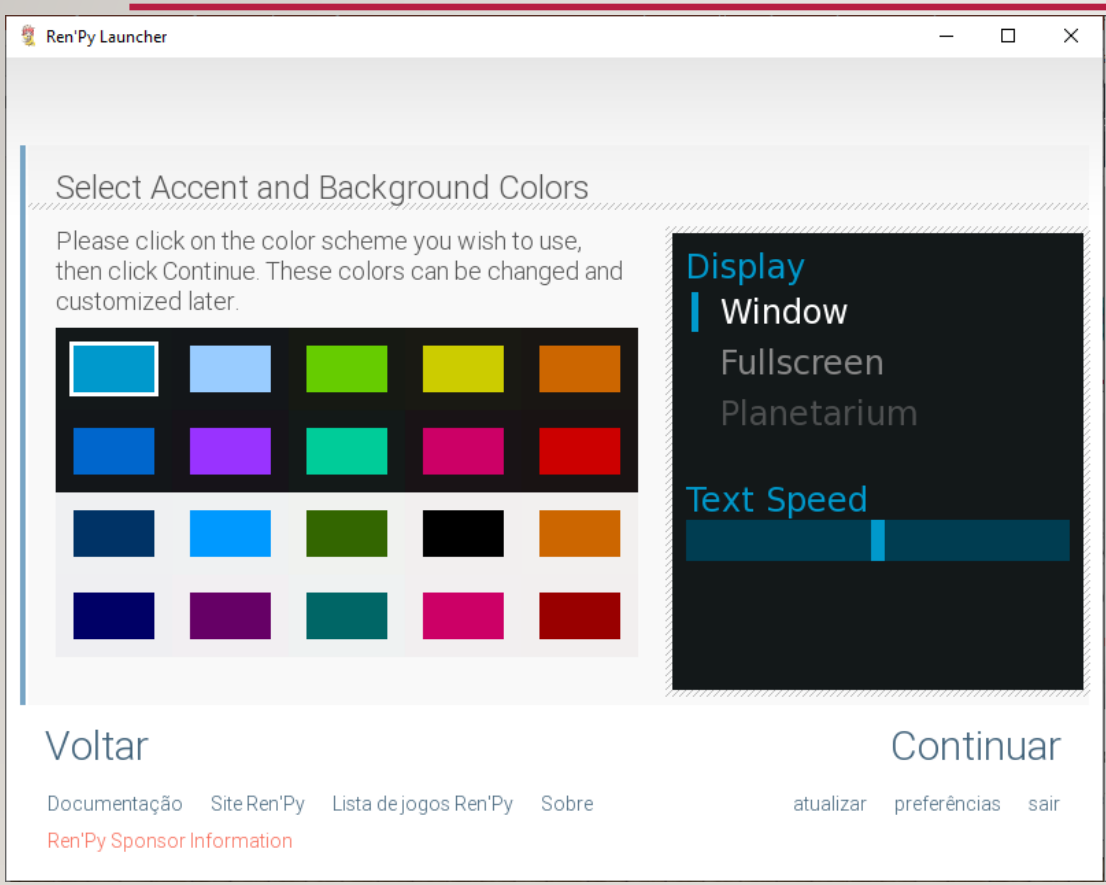

Crie um projeto mas cuidado com o nome. Depois veja o tamanho.

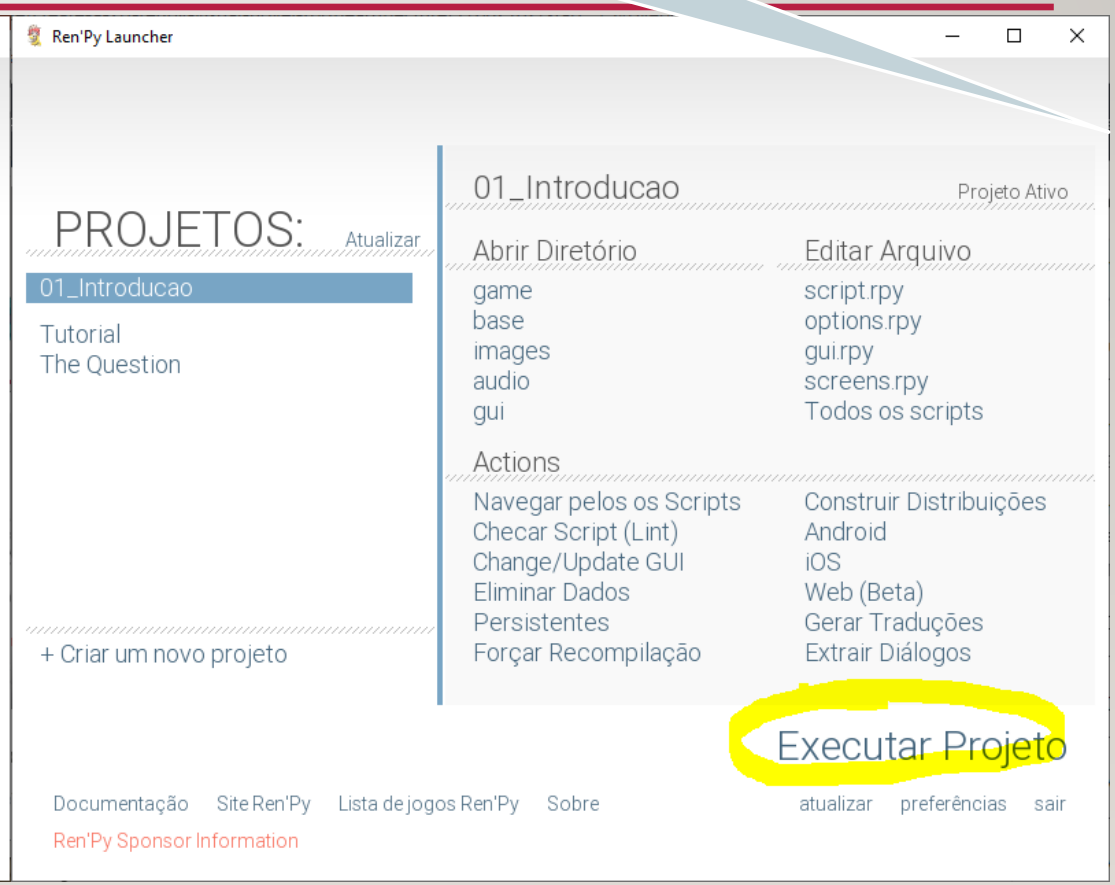

Mantenha o Display e o Text Speed. Em seguida, execute

Pronto. Está criado e esperando você inserir sua Visual Novel

Esqueci de falar: nas preferências marquei o JEdit
